

# Relative Humidity and Ambient Temperature Sensor

DIG-TH1

## Description

Ideal for continuous measurement of ambient humidity and temperature, as well as dew point. Precise and lightweight. PVC housing for exclusive indoor use.

Notable features are:

- Stable measurement, even in prolonged use.
- For indoor use from -40 to 85 °C.

## Technical Specifications

Reference	DIG-TH1
<b>Measuring Range</b>	-40°C to 85°C -40°F to 185 °F 0 to 100 %R.H.
<b>Resolution</b>	0.1°C, over whole range 0.1%, over whole range
<b>Max. Error</b>	+/- 0.5°C, over whole range +/- 0.1%, over whole range
