

Relative Humidity, Ambient Temperature and Atmospheric Pressure Sensor

DIG-THP1

Description

Ideal for continuous measurement of ambient humidity, temperature and pressure. Precise and lightweight. PVC housing for exclusive indoor use.

Notable features are:

- Stable measurement, even in prolonged use.
- For indoor use from -40 to 85 ° C.

Technical Specifications

Reference	DIG-THP1
Measuring Range	-40°C to 85°C -40°F to 185°F 0 to 100 %R.H. 300 hPa to 1100 hPa
Resolution	0.1°C, over whole range 0.1%, over whole range 0.18 Pa, over whole range
Max. Error	+/- 1.5°C (-40°C to -20°C) +/- 1.25°C (-20°C to 85°C) +/- 3%, over whole range +/- 1 hPa, over whole range
